General Guidelines

- Double space entire document.
- Center title for references page: Works Cited
- Alphabetize citations by first word, generally, author's last name. If first word is title, disregard *a*, *an*, *the*.
- Start each entry at margin and indent second and subsequent lines 0.5 inch.
- To keep URL in MLA format, immediately after keystroke that turns URL into hotlink: Edit menu/Undo autoformat.
- Date order: day, month, year. Abbreviate all months except May, June, July.
- In the text, to document quotes or ideas, put author's last name (if any) and page number (if any), in parentheses. If author's name is mentioned in sentence, give only page number in parentheses. If no author, use shortened version of title. In-text documentation enables reader to find complete citation in *Works Cited* list.
- This guide omits the URL for library subscription databases (see MLA Handbook, 6th ed., 5.9.1, p. 213 and 5.9.7, p. 229).
