

## **Nursing Audiocast**

**05.23.06**

Hello and thank you for choosing North Harris College. The NHC AD.N program is a 72 credit hour AAS degree program that prepares students to take the state-administered NCLEX-RX examination. We offer two training tracks: The Transition or Articulation Track for current LVNs and Licensed Paramedics; and the Basic Track, for all other students, including those with little or no professional health care experience.

For students interested in learning more about the Nursing program, information sessions are held twice a month every month. You will find a schedule on the nursing webpage. Just go to [northharriscollege.com](http://northharriscollege.com) and use the quicklinks on the left side of the screen to find Nursing Programs. Once you are on our page, use the menu on the left to navigate through our screens. You'll find information on the admissions and selection criteria for both tracks, dates for information sessions and other information for prospective nursing students. We strongly encourage you visit our website and attend an information session before you take any pre-Nursing coursework.

The NHC Nursing program begins in the summer or fall only. Applications are only accepted during the Spring semester and are usually due at the beginning of March. Nursing is the career for the 21<sup>st</sup> century. Don't be left out. Visit our website today!

North Harris College is located at 2700 W.W. Thorne Drive., one-half mile south of FM 1960 East, between Aldine-Westfield and Hardy Roads.

Registration for summer and fall semesters is now in progress. For more information about the college, call 281.618.5400 or visit:
