

The ACT Center is an on-line training provider that delivers computerized training and testing to individuals, employers, and professional organizations using both Internet and server-based technologies. It is a comprehensive and dynamic resource for developing a community's workforce and economy. ACT Center services include:

Continuing education courses in a broad array of disciplines

Skill-specific training in selected fields

Blended learning solutions that combine the best of classroom methodologies with the best of web-based instruction.

Computer-delivered certification and licensure tests for trades and professions

Workplace skills assessments

North Harris College's Corporate and Continuing Education Division will offer learning programs via the Web and from two classrooms:

CE 203 (North Harris College)
Room 202 (District Office Building)

Certification testing will be administered through North Harris College's Assessment Center in A 102.
